SUMMARY

Detail-oriented UI & UX Designer who bridges the gap between design and web development. Proficient in crafting end-to-end user interfaces, interactive prototypes, and design systems within Figma. Translates design vision directly into production-ready websites using Webflow and Framer, incorporating custom layouts and smooth micro-interactions to elevate user engagement.

TECHNICAL SKILLS

Design & Dev Tools: Figma, Canva, Webflow, Framer, Adobe Illustrator .

Frontend & Development Tools : HTML, CSS, JavaScript , VS Code, GitHub, Git, Hostinger, Vercel.

AI & Creative tools : Antigravity, Lovable, Higgsfield, Claude, Google Stitch, DaVinci Resolve, Capcut.

UX/UI Design: User Research, Information Architecture, User Flows, Wireframing, Prototyping, Responsive Web & Mobile App Design, Design Systems, Accessibility (WCAG).

PROFESSIONAL EXPERIENCE

UI/UX & Graphic Designer | Freelance Remote | [Portfolio website](#) **Aug 2025 - Present**

- Creating wireframes, prototypes, and user journeys in Figma to build intuitive digital experiences.
- Designing responsive, SEO-friendly web layouts, executing full visual builds in Webflow and Framer.
- Collaborated with stakeholders to convert ideas into production-ready, high-converting design assets.

PROJECTS

Real Estate web App | Figma, Antigravity, GitHub | [Live Site](#) **June 2026- July 2026**

- Designed a fully responsive UI & UX web app for a real estate platform in Figma, crafting user flows, high-fidelity wireframes, property filter components, and interactive prototypes.
- Developed the web app using Antigravity, ensuring clean visual layout, smooth component behavior, and seamless cross-device responsiveness.
- Managed code versioning via GitHub and deployed the live application on Vercel, establishing a fast, reliable production environment for users.

Quick Support Conference calling app | Figma, Webflow | [Live Site](#) **Feb 2026 - Mar 2026**

- Designed intuitive UI/UX layouts and wireframes in Figma focused on an effortless customer support flow.
- Built the responsive website in Webflow, implementing custom visual components and smooth page interactions.
- Optimized technical SEO and site performance to ensure fast load times and high search engine visibility.
